English Writing & Reading

In English, we will be reading different types of poetry related to animals. Students will then create their own poems in various styles.
In the final two weeks, students will look at animal fact files. We will research information to write a fact file about an animal of choic

Spring Term 2

2025-2026

Maths

At the beginning of this half-term students will work on fractions. We will find equivalent fractions before working on adding and subtracting fractions.

Students will work on their understanding of time. We will convert between different units of time including hours, days and weeks.

Topic

In Science, our topic this half-term is amazing animals. Students will separate animals into their own categories and learn how animals can be grouped by characteristics.

We will also look at animal food chains and create our own food chain using various animals.

PE

We will also participate in fortnightly PE sessions on-site. Students will complete a workout circuit consisting of several different activities.

Afternoon activities

Students will be developing their social learning during afternoon's by taking part in team building exercises and games.
We will also be taking part in weekly PSHE discussions to develop understanding and support life skills.
Students will also have weekly Art sessions related to our animal topic.

Computing

Pupils will develop their coding skills using Discovery Education coding. This half-term students will learn how to program objects to move in various ways.
